Overview

This brand style guide aims to capture the essence of what makes Blaze the company it is. For a company that aims to connect with an audience through authenticity, this style guide will serve as its primary resource to do so.

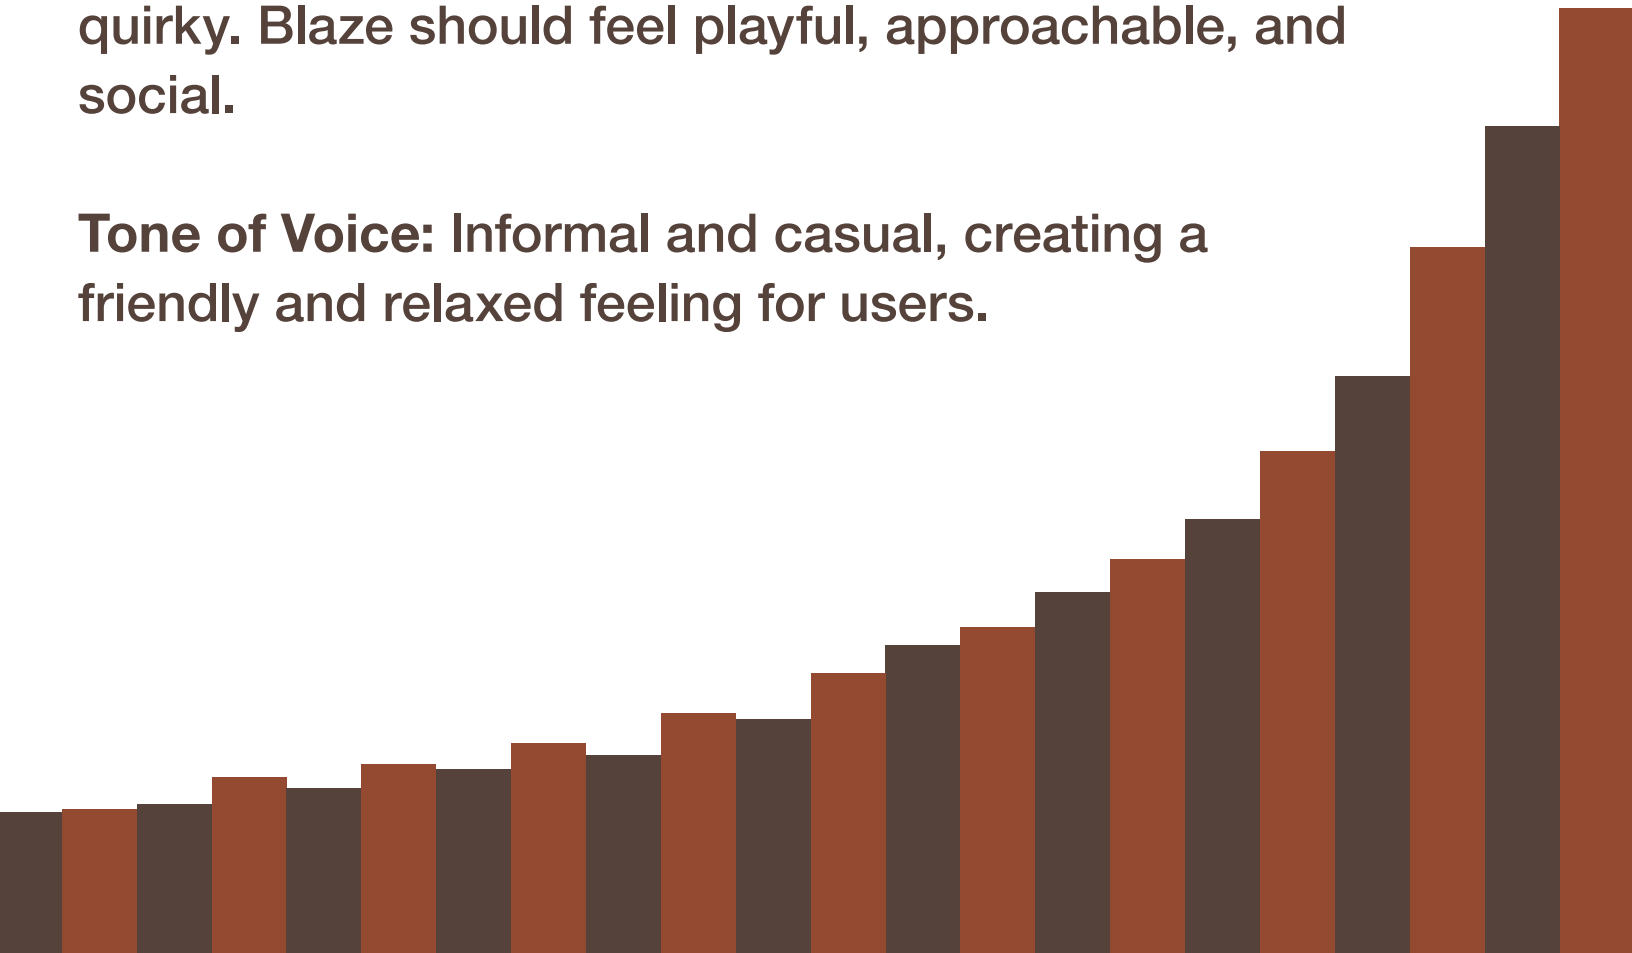

Brand Vision

Mission Statement: Blaze connects adults from diverse backgrounds by helping them build communities and meaningful relationships in an adults-only social media environment. Unlike many social platforms, Blaze focuses specifically on adults 21 and older. Blaze's presence in the social media space fills a niche that will help it to maintain its sense of authenticity and community for years to come.

Personality: Fun, light, informal, irreverent, and quirky. Blaze should feel playful, approachable, and social.

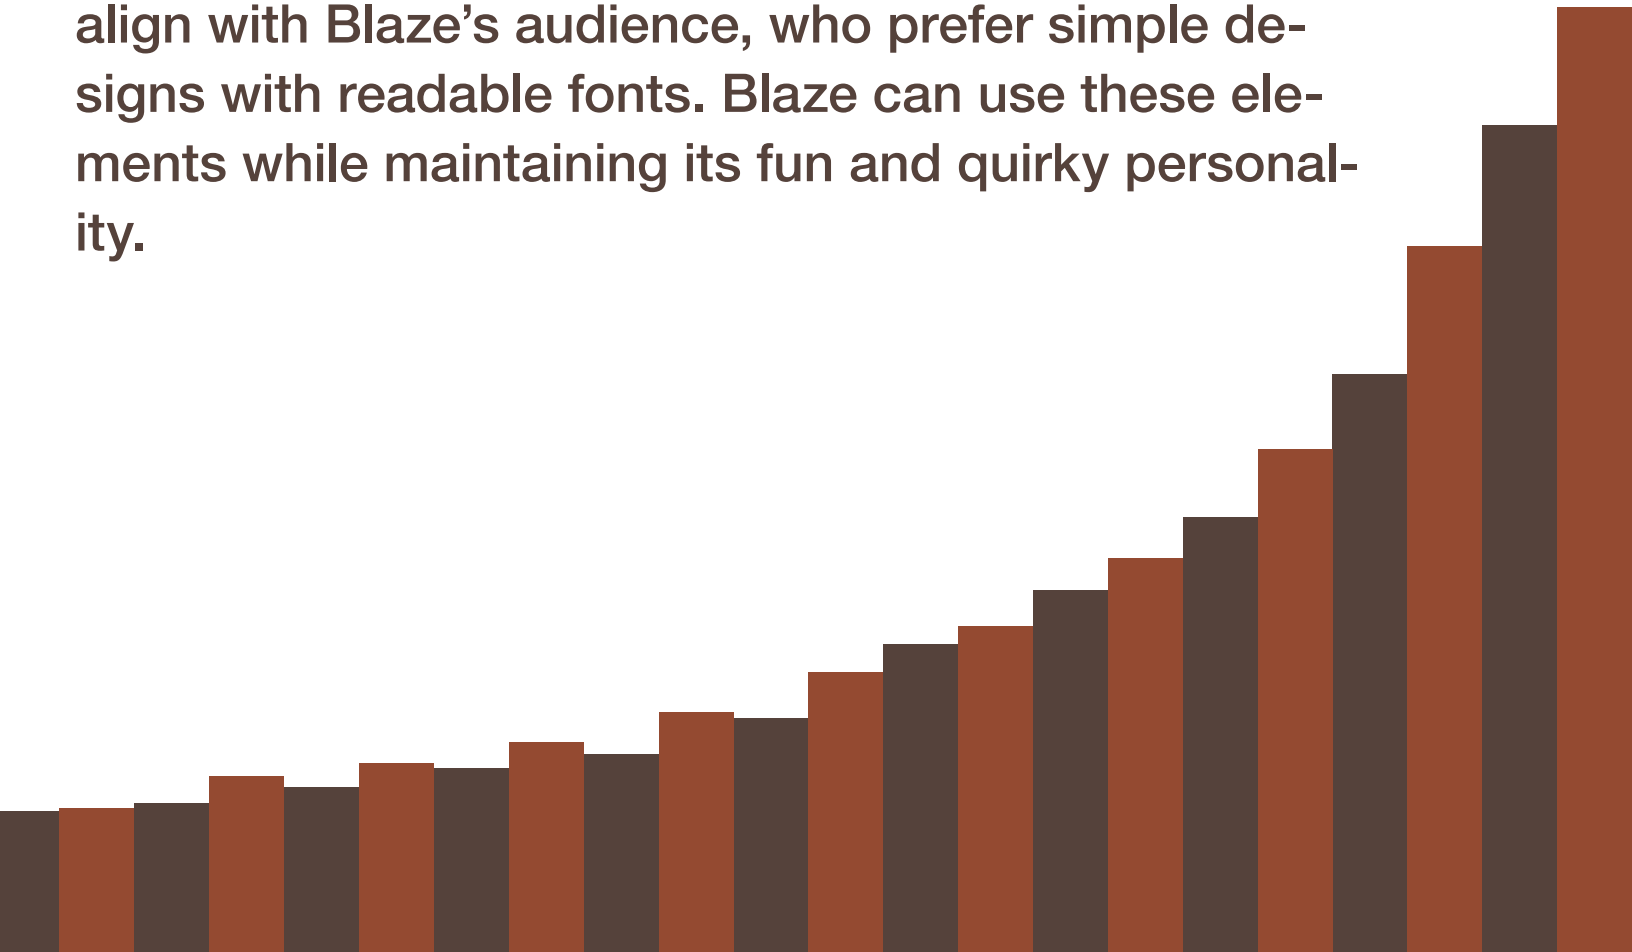

Tone of Voice: Informal and casual, creating a friendly and relaxed feeling for users.

Target Audience

Target Audience Needs and Preferences: Blaze primarily targets Generation X adults ages 42–57, who are generally middle to upper-middle-class and college educated. They value simplicity, preferring clean sans serif fonts and subtle earth tones with warm hues rather than bright, artificial colors.

Visual Competitor Research: Competitors commonly use simple logos, clean sans serif typography, and recognizable color palettes. These findings align with Blaze's audience, who prefer simple designs with readable fonts. Blaze can use these elements while maintaining its fun and quirky personality.

Logo Usage Rules

Rotation

The Blaze logo should always remain upright and should not be rotated or tilted in any way that would make the logo inaccessible or unreadable.

Example:

Do:

Do Not:

Clear Space

Leave enough empty space around the logo so that other text, images, or design elements do not crowd it.

Example:

Do:

Do Not:

Scale

The logo can be resized as needed, but its proportions must remain consistent. Do not stretch or distort it.

Example:

Do:

Do Not:

Transparency

The logo should remain fully opaque to ensure it is easy to see and recognize.

Example:

Do:

Do Not:

Contrast

Always place the logo against a background that provides enough contrast for it to be clearly visible.

Example:

Do:

Do Not:

Color Variation

Use the black version on light backgrounds and the colored version on light or neutral backgrounds where it provides sufficient contrast.

Example:

Do:

Do Not:

Things to Avoid

Do not stretch, squash, or distort the logo.

Do not change the logo's colors to unapproved colors.

Do not place the logo over busy backgrounds that make it difficult to read.

Do not add shadows, outlines, or other effects to the logo.

Visual Identity Rules

Typography

Logo: Do not change the font or type family of the logo's wordmark. It must always be Helvetica Neue, 77 Bold Condensed.

HEADLINES: USE "BEBAS NEUE, REGULAR" FOR BOLD, ATTENTION-GRABBING HEADLINES.

Subheadings: Use "Helvetica Neue, 75 Bold" to keep subheadings clean and easy to read.

Body Copy: Use "Helvetica Neue, 55 Roman" for clear, readable paragraphs.

Captions: Use "Helvetica Neue, 45 Light" for image captions and supporting information.

Color

The two colors used in the logo are:

- Burnt Orange (#994A30)

- Dark Brown (#57433C)

These colors should remain consistent across digital and print materials to help maintain a recognizable brand identity.

Things to Avoid

- Avoid placing the logo over parts of an image where it blends into the background or becomes difficult to see.

- Avoid placing the logo over areas with lots of details that distract from the logo.

- Do not stretch, squash, or alter the proportions of the logo to fit an image.

- Avoid covering important subjects, faces, or details in the image with the logo.
